After more than two decades in the spotlight, virtually all of that time at the top of their game and the top of the charts, you'd think Alabama had done it all. After all, they were country music's first supergroup...they've sold millions of albums...and they've received nearly every award and accolade. But there was one thing that remained—one thing Alabama had to yet to attempt...and it was the one thing no one ever thought they would do—say "goodbye."
